Other machines have a half size speaker built into the mike. No need to continue buying expensive belts or discs. You can use Cole's magnetic tape over and over again indefinitely. After you try it you will realize why so many thousands of business and professional people use the Cole Dictator.

Only on the Cole Dictator is it impossible for the person transcribing to accidentally erase any of the dictation.

The easiest-to-use dictation machine
ever invented, better than ever with its
new 1959 exclusive features!

A powerhouse in the office . . . dictate
. . . transcribe . . . record conferences

. . . record telephone calls
(both your voice and the voice talking to you)
. . . all with push-button ease.

A world of uses for the Cole Dictater . . .

FOR OFFICE TRANSCRIPTION

The easiest machine in the world to use . . . bell-clear tone. Your secretary is an expert in minutes. She will use it as easily as the telephone. She simply listens and types at her own speed.

SALESMEN Take it with you! Make on-the-spot sales reports while they're fresh in mind. Dictate in your hotel or in your car. Keep on top of your promotional correspondence. (Mailing in the taped reports is a breeze, too!)

IN THE HOME No more night work at the office. Catch up on office correspondence in the comfort of your home. Your girl transcribes it at her convenience in the office. Record radio and TV programs, club meetings and minutes.

FOR PROFESSIONAL USE

DOCTORS: dictate clinical records, case histories, conferences and consultations. **LAWYERS:** dictate briefs, contracts, summations and correspondence. **TEACHERS:** make progress reports, record lecture notes, improve students' speech.

EASIEST TO OPERATE...

Minutes after it arrives, you'll dictate letters and reports clearer than you ever dreamed possible. With this electronic wonder you can change a word or sentence instantly with the flick of a finger. Errors erase automatically. It's as easy to use as the telephone—easier—should you be interrupted—presto, you can automatically hear your last sentence—make corrections—for "word-perfect" letters.

NO EXPERIENCE NECESSARY...

Dictation with the Cole Dictater requires no experience, requires no fussing, no puttering. Your typist simply listens and types at her own speed.

ORGANIZES OFFICE TIME—SAVES MONEY...

Helps organize your office to save money and time... Dictate when it suits you—during or after hours. Your girl transcribes when it's best for her. Fully eliminates costly old-fashioned stenographic dictation.

IMPORTANT FOR IDEAS...

Don't let that big idea get away! Don't try to keep it in mind. Press a button, presto—the idea is recorded until you are ready to use it.

PAYS FOR ITSELF IN A MONTH...

Eliminates expensive and wasteful routines. The steno time saved alone pays for the machine in weeks—from there on your Dictater is profit!

IT'S PORTABLE...

A wonderful "traveling secretary". Ideal for evening work at home, or to record your ideas in automobile, plane or train. For use by others in your office. The Cole Dictater is light, compact, handsome and sturdy.

Other outstanding features . . .

- Exclusive . . . amazing dual recording track. Only Cole enables 2 hour recording on one reel instead of the usual 1 hour. Or use the second track for corrections, makes erasures after typing unnecessary—thereby saving letter retyping.
- Only the Cole Dictater is erasure proof. Impossible for the person transcribing to accidentally erase any of the dictation.
- Specially treated tape ends assure automatic shutoff.
- Precision tape timer locates recordings quickly and easily.
- Lightweight. • Hi-Fi speaker is in the machine (not in mike).
- Fingertip controlled, extra-sensitive microphone.
